

Specifications

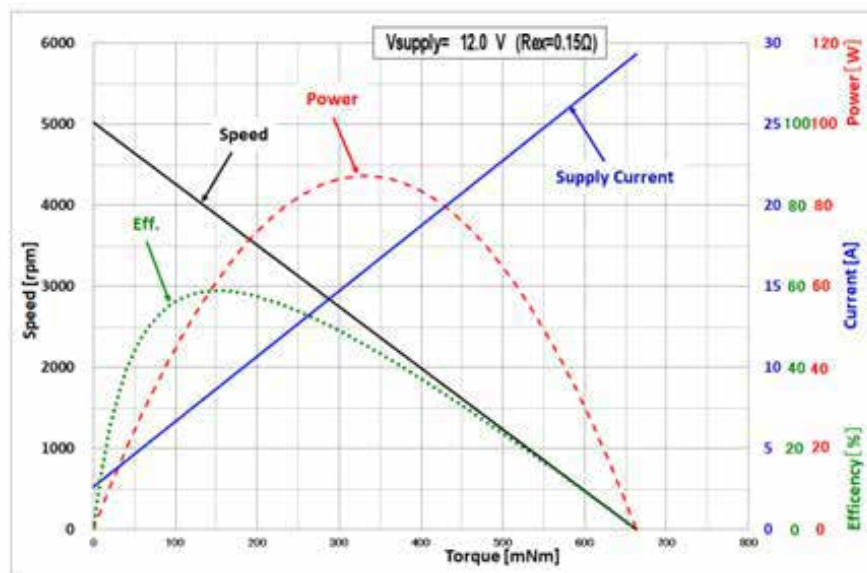

Motor type	3phase-14poles-12slots Inner rotor type brushless motor
Rated voltage	12 V
Rated load	130 mNm
Rated speed	3,700 rpm
Rated output	50 W (25 °C)
Operating temperature range	-40 ~ 125 °C (continuous) 150 °C (intermittent)

- UVW winding terminals
- Without commutation sensors

* Some customization is available, with commutation sensors, connector installation, etc.
