

# DIZ60 (80 W)

## Specifications

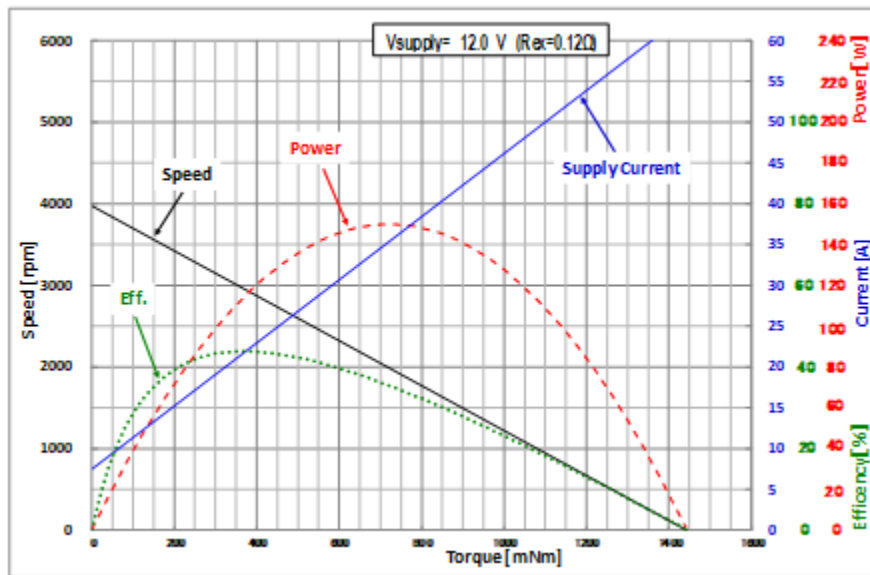

Motor type	3phase-10poles-12slots Inner rotor type brushless motor
Rated voltage	12 V
Rated load	270 mNm
Rated speed	2,850 rpm
Rated output	80 W (25 °C)
Operating temperature range	-40 ~ 125 °C (continuous) 150 °C (intermittent)

\* Some customization is available, with commutation sensors, connector installation, etc.

- UVW winding terminals
- Without commutation sensors

## Characteristics

## Outline
