

IP68 AIR MOVERS

NMB

NO
CHINA TARIFF

Meet the next generation of IP68 industrial fans by NMB Technologies. **Same rugged dust and water protection, but now has option for high volume production outside of China.** New production process also unlocks rapid lead wire and connector customization, giving engineers unmatched flexibility. Same legendary IP68 reliability, but **now produced smarter, faster, and more globally accessible than ever before!**

Features

- High Volume production outside of China
- Increase lead wire and connector design flexibility
- Improved production efficiency by 150%
- Improved noise efficiency for select models

Applications

- Home appliances
- Industrial products
- Medical devices
- Energy Storage
- Telecommunications

IP68 AIR MOVERS

NMB

Specifications
